To purchase services and resources related to self-directed learning	30th Anniversary English Musical	To bring English learning to life through music and drama, sparking curiosity, self-directed exploration, and joyful self-expression as part of our 30th anniversary celebrations.	July, 2026 – 3 Oct, 2026	70	$10,000	$24,265.71 (including hiring audio and light system $7129.71, hiring director for extra rehearsal $10,000, hiring studio and engineer for song recording $7000 and props $136) *(The other school grants will be used and combined.)*	The 30th Anniversary English Musical actively engaged 70 students across diverse performance and technical roles, including the core cast (20), vocal choir (20), backstage crew (10), costume and props team (4), and student MCs (4). The activity served as an effective platform for experiential language learning: cast members made significant gains in English fluency, articulation, dramatic expression, and self-directed discipline. Concurrently, technical teams developed script analysis skills to ensure seamless backstage coordination, while the choir and MCs demonstrated exceptional commitment through disciplined practice to deliver a polished, high-caliber performance.
	S5 English Activity – Plant-based meat Project	To explore modern dietary choices using plant-based meat alternatives	April, 2026	60	$1,000	$586.5	The S5 Plant-Based Meat Project successfully engaged students while broadening their understanding of the health, environmental, and global factors driving modern dietary trends. Utilizing these insights, students effectively demonstrated critical thinking in their written assignments by clearly articulating and justifying their personal dietary choices.
	S1 Mini-Olympics	To create an engaging, hands-on learning experience that allows S1 students to apply	Nov, 2025	80	$1,000	$200.1	The S1 English Mini-Olympics created an engaging, dynamic environment that boosted student motivation by blending physical sports with language learning.

		English learned during the "Sports" unit through active physical games and teamwork.					Working in teams, students strengthened peer communication while successfully applying unit-specific English vocabulary and expressions in authentic, active contexts.
	English Week	To spark interest among students and promote self-directed learning English exploration through fun, interactive experiences.	May, 2026	400	$8,000	$241	English Week delivered a highly interactive learning experience through a diverse range of activities, including game booths, board games, a 30-question challenge, student-teacher karaoke, lunchtime podcasts, and bingo. By blending fun and active participation, the event significantly enhanced student interest in English, fostering an engaging environment that empowered participants to become self-directed learners.
	Hiring tutor for Speech Festival Training	To help students build confidence and refine speaking skills while setting personal goals and learning independently.	Oct, 2025 – Dec, 2025	40	$15,000	$17,600	The engagement of a professional speech tutor significantly enhanced students' diction, rhythm, and vocal expression in both solo and choral verse speaking. Through targeted coaching, students built stage confidence, refined their articulation, and successfully earned Certificates of Merit in their competitions. Student feedback was overwhelmingly positive, with participants reflecting on substantial gains in both performance skills and personal confidence throughout the training sessions.
	Hiring tutors for After-school English Enhancement Class	To support students in improving English skills and developing ownership of their learning beyond the classroom.	Apr, 2026 – May, 2026	12	$10,000	$3,000	Taught by tutors who achieved 5* in HKDSE Speaking, the after-school enhancement class helped S5 students boost their spoken English fluency, articulation, and exam confidence. Through engaging discussions on diverse topics, students broadened their general knowledge while building self-directed learning habits.
	Writing Club	To showcase diverse student writing across the school, fostering	Sept, 2026	400	---	$4,000	School-wide distribution of the publication fostered peer learning by showcasing diverse writing genres—from short stories to

		peer-to-peer learning and inspiring self-directed language growth.					persuasive essays. The platform effectively motivated student writers to independently refine their work while inspiring readers to take ownership of their language development.
	Publishing school-based English Newsletter	To create a student-led platform that celebrates English learning, showcases diverse student talents, and fosters a vibrant language-learning community within the school.	October, 2026	400	---	$2,000	An English newsletter is highly effective in promoting self-directed learning by providing students with authentic purpose and autonomy. It encourages them to take initiative outside the curriculum, whether by researching an article, interviewing a teacher, or writing a creative piece they are passionate about. By seeing their peers' work published, students are inspired to explore their own interests and contribute, creating a positive cycle of peer-to-peer motivation and independent learning.
	Purchasing reading pens, earphones and usb-c earphone adaptors	To promote self-paced, autonomous learning through an AI platform that adapts to individual student needs. The program supports students in managing their own progress and developing independent strategies for mastering English.	Sept, 2025 – July, 2026		$25,000	$2,160 +$1,350	Through the complimentary subscription to the HKEdcity-sponsored Lingotask AI platform and the provision of earphones, USB-C adapters, and reading pens, senior form students benefited from a fully self-paced, autonomous learning environment. Instant AI feedback on Lingotask drove significant gains in speaking and writing, while the dedicated hardware enabled individualized listening practice and vocabulary decoding—effectively catering to learner diversity and reinforcing self-directed study habits across all language skills.
