

Lin Ho Wing 6K

Hello, I'm Howard from 6K. It was an unforgettable and wonderful memory to have the opportunity to go on a study tour with my best friends. So, I sincerely appreciate the school for organizing this 12-day Australia Eco and Cultural Tour. The trip not only broadened my horizons but also greatly boosted my courage. Most importantly, the itinerary truly improved my English communication skills.

Living with the host family was a truly wonderful experience. We had breakfast and dinner together every day. Our host was always pleased to share her daily life with us during dinner time. Additionally, the Italian dinner she prepared was really traditional.

Although we had to wake up very early in these 12 days, we were able to see the sunrise on the metro to start our day. It was completely worthwhile!

What's more "kangaroo-like" than a kangaroo in a zoo? A wild kangaroo. Every morning, we would get up early and head out. We could always see a group of wild kangaroos in the parking lot next to the South Morang station. That's amazing!
